## Why Haringey, London?

Haringey is a place of great opportunity, with enormous potential for growth – a growing economy and flourishing communities. We are part of one of the world's greatest cities and benefit hugely from that – but more than this we believe that we are the future of London.

Haringey's award winning parks are great places to host events, and we want to see more organised events taking place in our parks. Whether it's a very small community event or a major music festival we want our parks to be buzzing places, providing entertainment and activities for all communities.

Our Outdoor Events Policy provides us assistance with the decision making process behind building a sustainable and varied programme of events. It also seeks to protect the community and the parks and open space infrastructure and minimise or mitigate any negative impacts which events may cause.

Choose from a wide range of parks, and we'll help make the space work for you.

“

We've worked closely with Haringey Parks since 2014 and find them a pleasure to work with. They fully understand the needs of the promoter / production company and are always willing to listen to our concerns and act upon them in the interests of making the event a better experience for all concerned.”

Grant Smith, Director, Slammin' Events
